PROJECTS

Zellers.ca (November 02, 2022 - March 24, 2023)
I was part of developing zellers.ca

- Built a multi-banner eCommerce website using ISML, CSS, and JavaScript, resulting in a user-friendly and engaging online shopping experience.
- Designed and implemented key pages such as Contact Support, Home, Product Detail, and Product Array, resulting in improved user experience and increased sales.
- Contributed to the successful POC stage and production implementation of the eCommerce website, collaborating with cross-functional teams and ensuring project timelines were met.
- Ensured website responsiveness and performance optimisation across devices.
